Genesee County, N.Y. -- The county legislature will hold a hearing on 7/9 to discuss a proposal to ban the self-service display of tobacco products. The Smoke Free Genesee-Wyoming Coalition and the county Public Health Director are pushing for the ban. Genesee County, which borders Erie County, brings the total to five western New York counties considering or having approved anti-tobacco measures.

Mesa, Ariz. -- McKellips Bay Club, a neighborhood bar in Mesa, is the latest victim of the city's strict smoking law. The bar closed it's doors on 6/30, a day shy of a year after voter-approved ordinance went into effect. In recent weeks, at least three other establishments have gone out of business due to poor business.
